

The Grip Archipelago

Visit the Grip archipelago (*pronounced greeep*) which once was Norway's smallest municipality. Although Grip no longer has permanent residents, the archipelago thrives in the summer as descendants and visitors alike come to Grip. Time stands still on Grip, where the houses, church and

schoolhouse give you an idea of what life was like in this historical fishing village: When the arrival of the ferry bearing goods and news from land was the highlight of everyone's day. Now you too can experience this typical fishing village with the MS Gripexpressen. A trip to a little piece of Norwegian history.
